

Brendo and Team KIA arrived into Adelaide from Pt. Augusta yesterday after leaving the outback behind.

The road from Pt Augusta was pretty busy, with lots of traffic and it was quite different from the past week in the open countryside with only a few passing road-trains.

Brendo and the team have really enjoyed the outback – maybe they should turn around and drive back north again?

Today (Friday) is the final leg of the Global Green Challenge. The Sorento's will drive a 100km urban cycle, starting early tomorrow morning.

Final results of the Eco Challenge component of the Global Green Challenge should be known by 4pm today.
