

Brendan Reeves will kick off his 2008 rally season at the Cerberus Stages rally on March 1st.

Competing in his normally aspirated Subaru Impreza RS, Brendo will have his regular co-driver (and sister) Rhianon Smyth, alongside. The pair are looking forward to the event after a lay-off of almost four months since the end of the 2007 season.

"It will be great to get behind the wheel again and get some more k's under my belt," Brendo said. "This year, we are going to try and do as many rallies as possible to really build on our confidence and experience."

The all-daylight Cerberus Stages rally is held in Victoria's Powelltown-Noojee area and covers a total distance of 230km.
