

After a busy couple of days doing some rally driver instruction, Brendo made it home in time to compete in the first round of the Victorian Autocross Series on Sunday.

Competing in his Subaru Impreza RS, Brendo tried some new Pirelli tyres, similar to those that he used in last year's Australian Rally Championship, and he was very happy with the result.

"They definitely gave the RS more grip which will help for Lithgow," he commented.

The day finished positively for Brendo, taking the winner's title. His next event is the Rally of Lithgow on May 3.
